Warwick Academy

SO MUCH MORE THAN A PLACE TO LEARN

QUO NON ASCENDAM 2022

Mr. David Horan, B.Soc. Sci., M.Ed. Principal

Who would have thought – a second year of teaching and learning in a pandemic environment. It has been a monumental year of constant change, and whilst this has stressed our school environment, we continually aimed to ensure the very best for our students.

The year started with some hope that we may return to normality, however new Covid variants had their say and we were faced with remote learning periods and health protocols which impacted on our ability to deliver 'normal' school.

In October we were the first school in Bermuda to use lateral flow testing to do our best to keep positive cases out of school and reduce the impact on day-to-day learning in school. This progressively evolved along with Government Health Department protocols to allow for more and more of a 'normal' experience. As I write this in Term 3, we are close to, but not yet fully, back to normal. My hope is that in September we can start the new year with a vigour and focus on delivering an experience without the stresses of testing and health protocols.

Co-curriculars and the wellbeing of our students were impacted on the most by the pandemic. We worked very hard to keep some of our co-curriculars going, and in term 3 was able to accelerate these opportunities outside of the classroom. Wellbeing took center stage with us focusing our pastoral care conversation on socialization, reducing anxiety, and supporting mental health. We sat external examinations for the first time since the summer of 2019 and enjoyed the first overseas trips in a long while.

Our solar project delivered excellent results, reducing our electricity bill by \$50,000 a year and our Marine Science Facility, impacted on by the pandemic, came to life with many students in both the Primary and Secondary Schools benefitting from time there.

Our Year 13s enjoyed a normal valedictory walk, alumni luncheon, graduation ceremony, and prom, and we wish them the very best as they take the next step in their lives.

We look forward to our expanded Reception Year which will house 48 students next year and our innovative STEM Collaboratory in the Science Block which aims to ignite interest and passions beyond the curriculum.

We say goodbye to Ms. Anne Coakley who retires after 41 years of exceptional service in a variety of roles. None more recognized than as a Food & Nutrition Teacher and Head of Secondary. Working alongside Anne has been a pleasure and a privilege, and we will miss her.

For those leaving WA, good luck next year, and we hope that you leave with wonderful memories of your time with us.

I must end this Yearbook message by thanking our parents for their tremendous support, staff for outstanding their sustained efforts, and to our students for working with us so well this year.

The background of the advertisement is a close-up, slightly blurred image of numerous books stacked horizontally. The spines of the books are visible, showing a variety of colors including white, cream, red, blue, and yellow. The books are stacked in several rows, creating a sense of depth and abundance of knowledge.

FLORA DUFFY SWIMMING FACILITY DEDICATION

As I reflect back on the past year, it is, I admit, with some relief; relief that we managed to navigate all the new challenges that were thrown at us and I believe, come out on top. It was quite a journey! I wish to recognize the staff for their continued hard work and 'anything is possible' attitude, parents for being with their children and us every step of the way and, of course, our amazing students. What they have managed to achieve over this last year with all the obstacles thrown at them is nothing short of miraculous, and we should celebrate this!

In Term 1, we were able to start the year with after school clubs and activities – in class bubbles at that point in time. Sadly, we could not welcome back parents onto the school site, and in fact, we would have to wait to do this until Term 3. Our Lower Primary Winter Concert was filmed and shared with parents, and once again, we ran a mixture of physical and virtual PTCs.

Term 2 saw some relaxation of protocols, and children could start mixing with others in their year group and we managed to run all our PTCs in person. It was wonderful to meet parents face to face, and I know many appreciated being able to see inside the school. We still battled with managing positive cases, but for the most part, we succeeded in keeping the majority of students in school, and as the year progressed, group quarantining became a thing of the past.

We were able to start physical Lower Primary and Upper Primary assemblies again, and our Easter Competition went ahead in the PPMH; all be it with reduced categories and without visitors. The children (including Reception) visited the PPMH and took a look at all the entries and received their prizes. This was the term's highlight, as it felt like we were heading in the right direction.

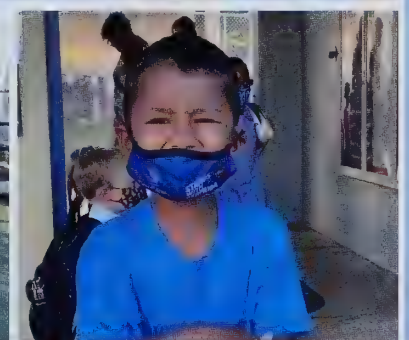

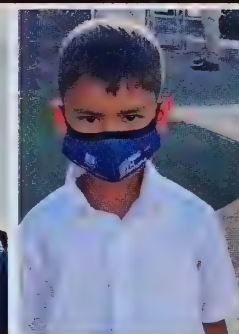

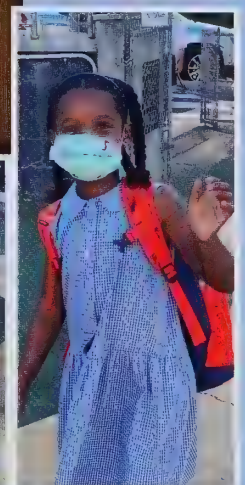

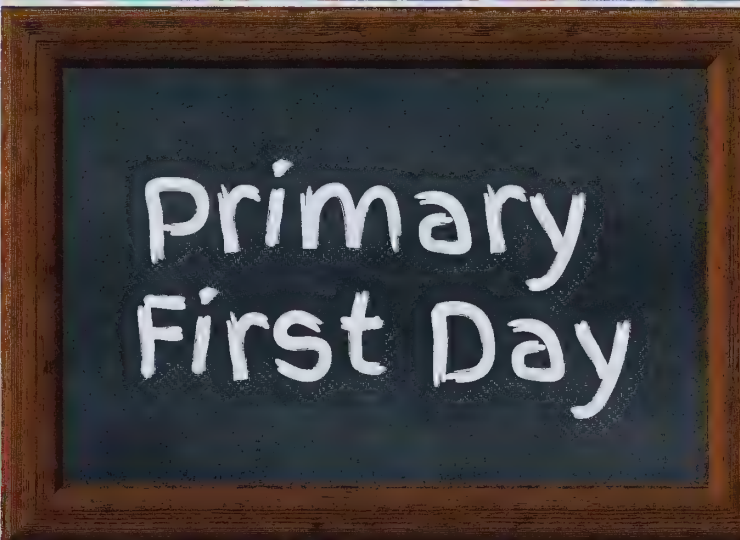

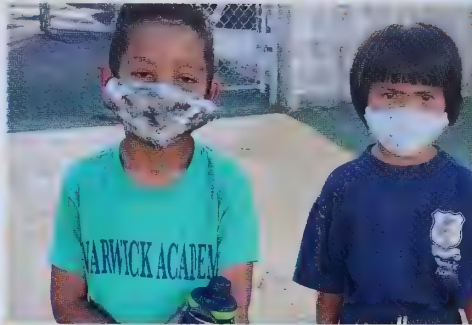

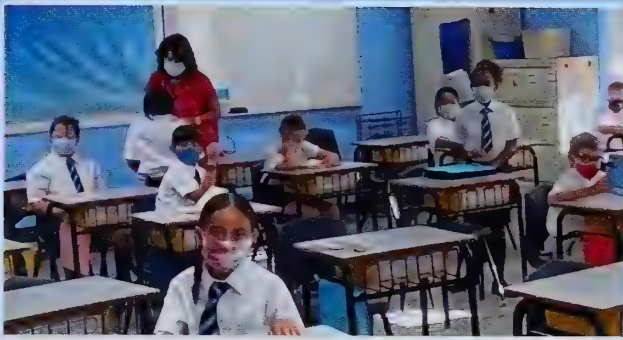

Term 3 was our busiest term regarding getting back to a much more normal environment. We were able to start welcoming parent volunteers back into classrooms and had open events to which parents were invited. The highlights probably being our sports events for Reception, Lower Primary and Upper Primary. There were still restrictions of course, and we were very much aware that Covid had not disappeared - but with a sensible approach we managed to finish the term successfully with more parental involvement than we had been able to the past few years. We enjoyed in-person presentations to new parents joining us in September. We also had our first full Y6 Celebration assembly for three years. It was lovely that this group got to end their time in Primary together with their parents present, especially as many of these students were part of the first group of students that started their journey with us in Reception in 2016. We ended the year with a fantastic Book Week, Y6 island fun visit and end of year parties.

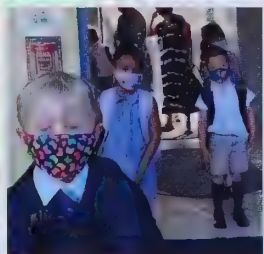

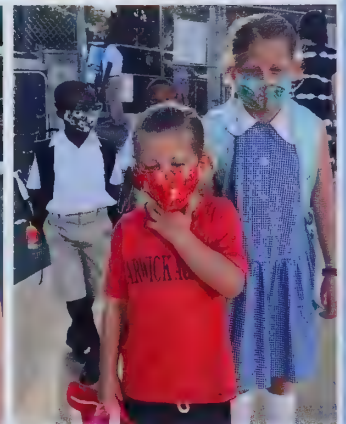

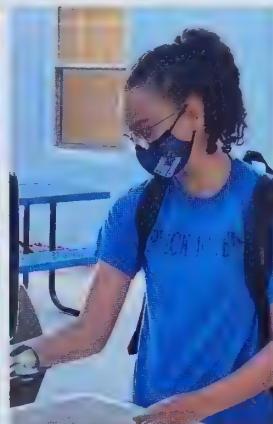

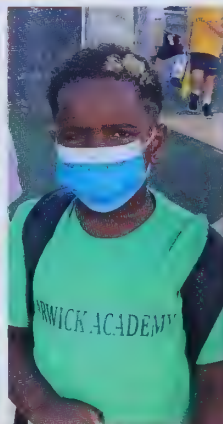

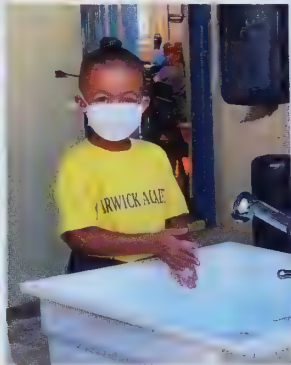

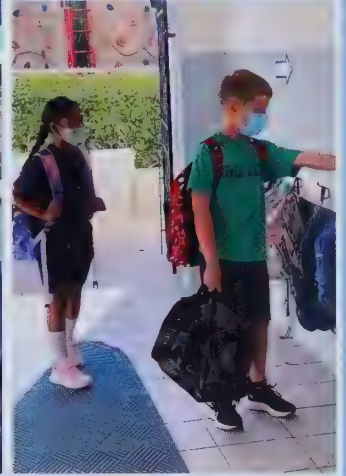

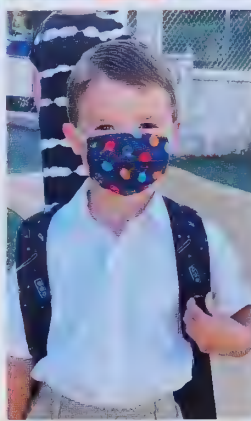

As we head towards what looks like it could be the 'light at the end of the tunnel' and a more 'normal' school year in September, I wish you all a peaceful and happy summer. To those leaving us 'bon-voyage' and to those remaining- we will see you in September.

Absent: Damacio Hendrickson, Jalen Tuckett

This year was "a game of 2 halves" as they say in football! A first part dominated by Covid followed by a return to a more normal school experience.

We had a very short but successful start to the year despite the protocols we had to have in place. Unfortunately, we didn't even last a month before a spike in numbers in the community, resulted in a return to the dreaded remote learning. At the time, it was very much, here we go again! Will we ever get back to some semblance of normality?

Fortunately, the partial answer to that question lay in lateral flow testing and we were (again) one of the first schools to adopt this approach. Although onerous, it did allow us to pick up any Covid cases before they came into school, thereby keeping students in face to face learning. There were still the Covid protocols to contend with. Endless mask wearing, sanitizing, distancing just seemed to continue, on and on and on. By the end of this year, our students would have logged over 50 000 antigen test results!

There was a realization world-wide that our Covid prevention protocols were actually more damaging to students than the actual virus itself. So, we entered the second half of the year in a different place to the beginning. An adjustment in school phases allowed for the relaxation of mask-wearing and more importantly a gradual return to a more normal life outside of the classroom. We have Duke of Edinburgh expeditions, sports days for middle and senior schools and the start of sports and other clubs. Covid didn't disappear and we didn't eliminate cases but we have learnt to live with the virus.

We were particularly pleased to welcome back the external exams for our Y11 and Y13 students. There is no doubt that these exams are the fairest way to assess and compare students worldwide. We eagerly await the exam results in July and August. Our first authentic results in 3 years!

One of the best parts of my job is the teaching. Whether it is my enthusiastic and fun-loving Y7's, my Y10's who are grappling with the start of IGCSE or my Y11's with their focus on their exams, these interactions are what makes the job worthwhile.

Students; you can be proud of your efforts and resilience this year. You can be confident that you will be able to contend with anything life throws at you in the future. A massive congratulations to the graduating class of 2022 (and particularly to a certain Charlie Thorpe)! You overcame many obstacles and are now ready to take on the world.

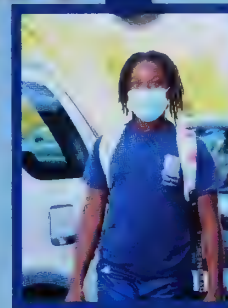

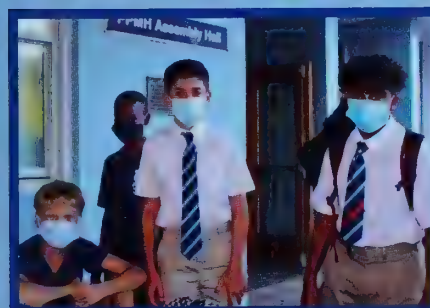

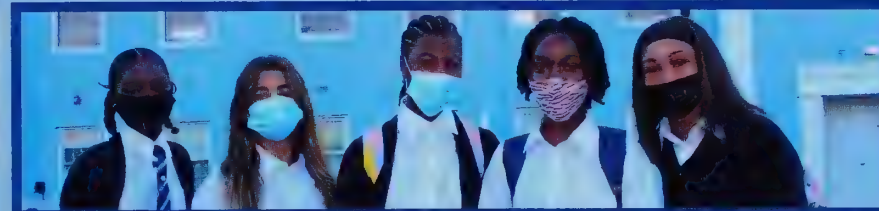

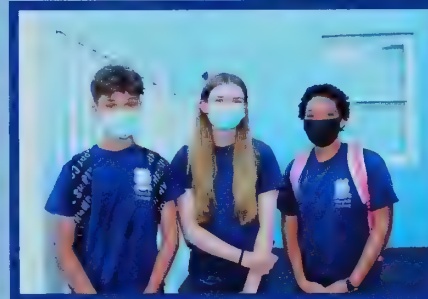

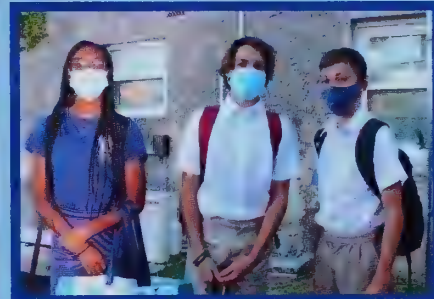

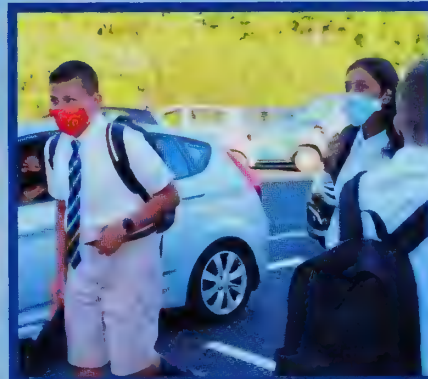

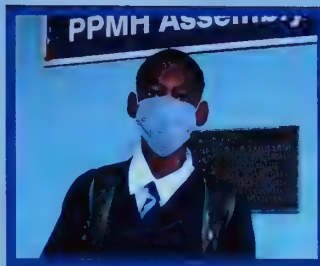

I would like to thank the teachers for all their hard work this year. This has again been a difficult and stressful year for them and we acknowledge the countless times they have gone above and beyond to provide a first-class education. They have certainly earned their summer vacation!

So what will next year look like? We are forever hopeful that it will be even more like normal and this is what we are planning for. We have had some students who have never had the full Warwick Academy school life experience and we hope they will have this opportunity next year.

Dear Readers,

So another Covid effected (or should that be affected) strange year comes to an end. Two years ago we had a split academic year in which the first half was normal and the second half was all changed due to the pandemic. This academic year has to some extent been the other way round, as whilst life in the Sixth Form is not fully back to normal, we have been able to do a lot more things in this last term than we were able to do because of Covid restrictions in the first two terms. This does mean

that the 2022 Graduating Class did miss out on some of the things that would make up a normal WA Sixth Form experience, but they did get to do what I believe is the most important part of the Sixth Form experience, since they actually sat their exams. It was a little bit of a shock to the system, not least for the staff who haven't run external exams for the past two years (I'm sure DHL share-holders are glad they have started up again), but the end result was that the students got to demonstrate their true abilities and have a solid foundation of grades to take them forward into the next stage of their life, be that further education or the work place. It is no real surprise that they dealt with it all within their stride, since they have continually shown their resilience throughout the last two years. Of course, the end of the academic year does mean that it is time to say goodbye to our graduating class of 56 students. I wish the Class of 2022 all the best as they go into adult life and trust that they find some time to relax over the summer before they venture out to populate the higher educational institutions of the world. I am sure they will take many fond memories with them and have made friendships that will endure for many years to come.

Despite restrictions during the first two terms of the year, the Sixth Form continued to be busy both with our own endeavors and as part of the broader school community. We showed our school spirit in Barber Hall, not just during Spirit Week, but with video assemblies and helping out at whole school events. Christmas Karaoke lunchtimes (whilst wearing masks of course), games of War and helping out at WAPTA events. Throughout the final term of the year, as restrictions have lifted, the new student leadership team and the rest of the Y12 student body have got fully stuck-in to Sixth Form life. We have had Eco-club and Human-Rights events, Sports Days (both as participants and helpers) and seen students represent the school and Bermuda in Hockey, Football, Volleyball, Swimming and other sports. We have also been heavily involved in charity events that keep us fit, having participated in the End-to-End, Relay for Life and WA Fun Run. To finish the year, we have two university trips that are going to Canada and the UK, so that will help prepare us nicely for what is to come in September and beyond.

My thanks go to the staff at Warwick Academy for their hard work, enthusiasm and dedication to the success of all our Sixth Form students. I would like to extend my thanks to Sara Jackson (Director of Sixth Form Studies); Shelly Grace (Assistant Head of Sixth Form); Stefanie Sinclair (IB DP/CP Core Coordinator); and our team of Sixth Form homeroom tutors for going the extra mile to ensure our students were successful, as well as for putting up with my many quirks and eccentricities.

Let's hope that next year we can have a full year of Sixth Form life that includes everything that makes Warwick Academy more than just a place to learn,

Ralph Woods

Year 11

The Human Rights Project is a student-led initiative based on the Human Rights Friendly School Project developed by Amnesty International. In this context, participatory methodologies are used to empower young people to develop the skills and attitudes that promote equality, dignity and respect in their school community and the society at large. This year, members of the Human Rights Student committee consisted of a group of passionate and dynamic students: Year 11 Imara Richardson, Olivia Buchanan and Mia Baccaglio as well as Y12 Etienne Wolffe, Isabel Roe, Matina Pradhan, Kwame Naylor, Blake Oliviera, Malikah Tankard, Rakshana Sureshkumar, Isabelle Gaugain and Kaliyah Lee-Tucker.

Students navigated COVID-19 successfully and were able to present a thought-provoking program and created a new branding for their group. Highlights of the Human Rights Project included a series of Equity Webinars for parents (featuring in particular Human Rights Project alumni Elena Menendez-Sanchez and Théo Wolffe), a presentation on Human Rights Issues during a Pandemic, Black History Month celebrations and a social media campaign on gender-based microaggressions on International Women's Day.

Warwick Academy
HUMAN RIGHTS
PROJECT

Warwick Academy *Natural* History Club

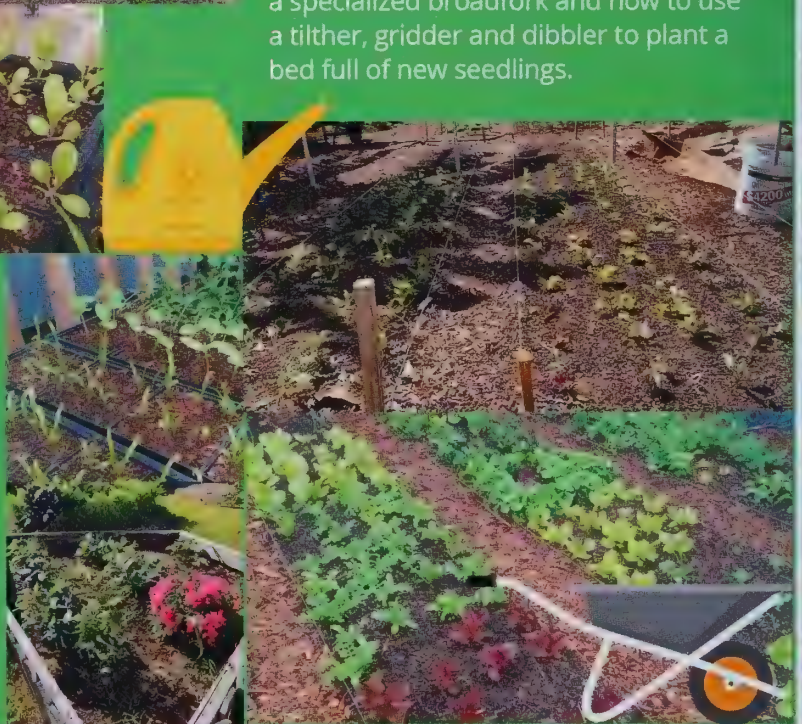

Warwick Academy Natural History Club has evolved to become the WA Sustainability Project. The project encompasses several aspects of environmental sustainability, from Food Security to Native Habitat restoration and the goal is to involve as many WA students in these projects, as possible

The Tuesday and Thursday gardening activity groups and afterschool gardening club learned about the soil food web and the importance of microorganisms in the soil for healthy plant-life, the science behind compost-making, how to blend potting soil, how to graft, prune and care for Tomato vines; plant seeds in winstrip trays; prepare new, till-free, garden beds using a specialized broadfork and how to use a tilther, grider and dibbler to plant a bed full of new seedlings.

The **Outstanding Young Environmentalist Award** was presented to Year 11 **Luke Foster**, who has shown exceptional commitment and contribution to the preservation of Bermuda's natural environment. Luke is one of our founding members of the Natural History Club. He's a constant figure on weekends and holidays planting, digging, growing and restoring the flora and fauna in Bermuda.

Warwick Academy Garden Market

Fridays, 3:25 – 4:00pm, on the basketball court
Selling Fresh Seasonal produce, Herbs and Seedlings

HABITAT RESTORATION PROJECTS

Natural History Club students took part in tree planting for the Queen's Green Canopy Initiative, on the grounds of Government house. We donated 10 native trees from our NHC plant nursery. In total, over 70 trees were planted with a large team of volunteers.

WA parent Andrew MacFarlane made a generous donation to the Natural History Club to put towards the planting of 7 native trees on School grounds and a further 13 trees at the Stoke's Point Nature Reserve.

Little Seeds

Reception year helped 'stomp' and plant over 200 olive wood seeds with Mrs. Wingate this year. Seeds planted 2 years ago by reception and primary students raised approximately \$7000 in plant sale funds to help build a new greenhouse for the science dept! This has become an annual 'seed stomping' tradition. Those seeds have now germinated

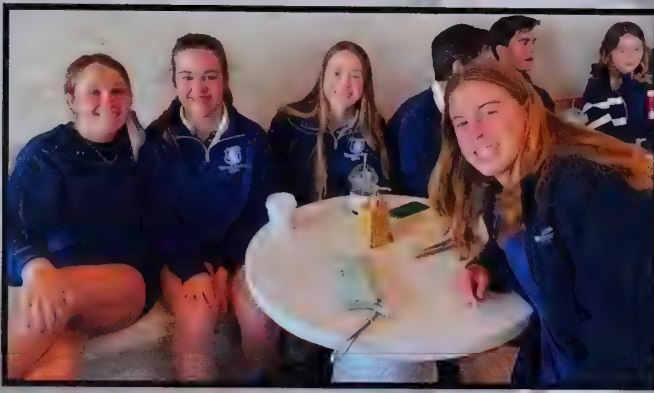

CHess CLUB

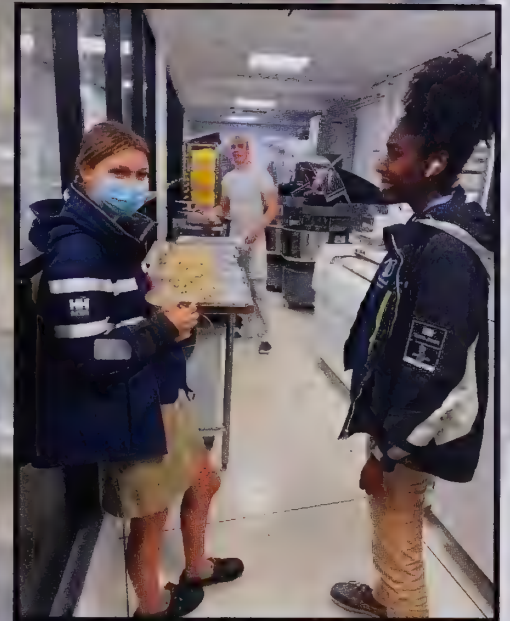

Our Senior Chess Club is one of the Co-Curricular activities provided by the Library and is run every year with the assistance of a Student Chess Instructors.

Ashley Todd Y10 and Christian Bothelo Y9 oversaw the club activities throughout the year. We alternated between virtual chess and outdoor chess and were able to navigate COVID restrictions successfully and welcome Chess enthusiasts of all levels on a weekly basis. In March 2022, the Club raised funds to sponsor a Nigerian child to enroll in the Chess in Slums Program.

French Bakery Trip

Shout Outs

Kemiyah, you are an amazing person!
Congratulations IB Graduate of 2022. Wishing you much success in your future endeavours

Well done Gabriel!
We are so proud of you. A wonderful future awaits you.
